

# School Reopening Plan

**2020-2021**

## Introduction

The global Coronavirus pandemic has introduced a new level of risk for in-person instruction and in-person gatherings. Schools are designed to educate students through social, face-to-face interactions, in relatively close spaces and in large groups. The benefits of this approach to education are well accepted. We know that everyone is longing for normalcy in our lives. We also know that student and staff safety are our number one priority followed closely by religious and academic instruction. St. Stanislaus staff members have been working closely with local health officials, local school districts, and the Diocese of Jefferson City to develop a re-opening plan that meets the needs of our school community.

As we plan for a school year likely to be continuously impacted by the COVID-19 pandemic, we must be prepared to the best of our ability for all possible scenarios. Student safety will be our highest priority. As a staff, we will be prepared to continue to deliver instruction remotely and as seamlessly as possible if the need arises. We have learned from this past spring and have worked to develop plans that insure greater accountability for instruction and learning.

As we continue to navigate COVID-19 Coronavirus and the impact it has on our school, we have never lost sight or focus on the impact it has also had on our staff, students and community. We know that each individual has been impacted in different ways and that everyone has differing views on how we should return and what that should look like. As a Catholic community we are called to model respect for differing viewpoints.

## General Guidelines

In all classrooms, students will maintain a stable group (grade level) as much as possible. There will be ample time for children to use the restroom and be outside with peers. Teachers and staff will ensure proper safety protocols as students move throughout the school building.

The school will continue to monitor health department and CDC recommendations regarding social distancing.

A stable group is an individual's personal collection of people who have been in their 6-foot perimeter. The student would normally interact on a daily basis with this group.

Classroom protocols will include assigned seating and other measures to minimize contact.

Large gatherings will be limited. This will result in:

- Students will report to their classroom from 7:20 a.m.- 7:40 a.m.
- Early Care (6:55 a.m.) for grades 1-8 will gather in the gym, by grade level rows
- Early Care (6:55 a.m.) for Pre-K and Kindergarten will gather in the cafeteria
- Altered cafeteria procedures
- Altered guidelines at sporting or other events (see below)
- Modification or cancellation of school events as necessary

These types of activities will be evaluated as the year progresses and in consultation with health officials.

Students will be required to bring filled water bottles, labeled with the student's name, each day. Fountains will not be available for drinking but for filling water bottles.

Birthday/Celebration treats must be store bought items that are individually packaged. Treats must be delivered to the office or taken to the classroom by the student.

In order to limit exposure to our students and staff, visitors will be limited to the school office area. This will be re-evaluated based on current health conditions/recommendations throughout the school year.

- Visitors that are allowed in will have their temperature checked and must wear a mask.

### **Lunch/Recess Guidelines**

Recess will be held outside as much as possible. Multiple zones or play areas may be used to limit group size.

Lunch will be provided in the cafeteria using social distancing practices and maintaining stable groups as much as possible. Some changes to the food service program may take place until restrictions/guidelines from the health department change such as: no open self-serve containers, possible use of disposable utensils, and no sharing of food among students, at any grade level. We will not use junior high lunch servers this year.

### **Specials Classes**

PreK-8 students will have access to specials classes with the following guidelines:

- Social distancing will be managed as much as possible.
- Hand sanitizing before and after class will be expected.
- Surfaces/equipment will be disinfected on a regular basis.
- **P.E**
  - When possible, PE will be held outside. Students will attend P.E. in the gymnasium if they cannot go outside.
- **Art**
  - All students will attend art in the art rooms. Modifications are being made to the curriculum and instruction to limit shared supplies.
  - Junior High students will have art in their classroom. Students in grades K-5 will wear a mask while in art class.
- **Music**
  - All will attend music in the music room. The music teacher will be making modifications to the curriculum and instruction to limit shared supplies as much as possible.
  - Chairs are spaced, music is read from the Smartboard (no books), and cleaning/sanitizing takes place in between classes.
- **Technology**
  - All students will have access to the computer lab. All equipment will be regularly disinfected.

### **Mass**

Classes in grades K-8 will continue to plan Mass as assigned. Class attendance at Mass may be limited to the class leading Mass that day. This will continue until restrictions on social distancing at Mass are relaxed.

- Students in grades 2, 4, 6, and 8 will attend on Wednesdays.

- Students in grades 1, 3, 5, and 7 will attend on Fridays.
- Students will wear masks into Mass, to Communion and when leaving Mass.

### After Care

After Care will be provided utilizing stable groupings, social distancing, and other layers of protection to the highest extent possible. After Care may be suspended based on the health of the school building and in consultation with the local health department and the Diocese of Jefferson City. Parents will receive further communication on pickup locations and other guidelines once numbers of students attending After Care are established.

### Staff & Student Screening Measures

Students and staff who have a fever (100.4 or higher without fever-reducing medication), cough, or other symptom of COVID 19, will be asked to stay home and report the absence to the school office or supervisor.

Most medical professionals define a fever as a body core temperature elevation above 100.4 degrees. A temperature should be measured BEFORE giving medications to reduce the fever. Students will be sent home with a temperature of 100.4 or greater and may not return to school the following school day. For example, a student or staff member who is sent home on Monday at 9:30 a.m. will not be allowed to come to school until Wednesday. Another example would be a student or staff member who is sent home Thursday at 1:00 p.m. will not be allowed to come to school until Monday. The student may return to school sooner if accompanied by a doctor's note with a diagnosis not related to a respiratory illness, influenza, or COVID-19. Examples of these would include a sinus infection, strep throat, ear infection, etc. With these circumstances, however, the student must be fever free for 24 hours without the use of fever reducing medications. Fever reducing medications include Tylenol, Acetaminophen, Motrin, Ibuprofen, etc.

- Those allowed into the school buildings may be screened.
- Students will be temperature checked in the morning, as they enter the building.
- Students who are identified to have a fever, cough, or other symptoms of COVID 19 may be instructed to wear an appropriate mask, use hand sanitizer, and go to a designated area to be picked up by parents and sent home.
- Students and staff who have been traveling must self-monitor or self-quarantine if needed. This self-screening outlines that you should not enter a building, if in the past 14 days, you have experienced:
  - a fever (100.4 or higher) or a sense of having a fever (you don't feel well);
  - chills, cough, sore throat, headache, fatigue, nausea, vomiting, diarrhea;
  - new loss of smell or taste, new muscle aches;
  - If you or a close contact has been diagnosed or presumptively diagnosed with COVID-19.

### Health Room

- The Nurse will regularly keep a log of health room visits. The name and phone/number/address of all persons seen with fever, cough, or other symptoms of COVID 19 will be recorded. Due to student privacy, these

records are not public; however, information may be shared with the Jefferson City/Cole County Health Department, as appropriate.

- The Jefferson City/Cole County Health Department will provide guidance on students and staff who have had contact with people who are suspected COVID-19 positive.

### **Suspected or Confirmed Case of COVID-19**

In the event of a suspected case of COVID-19, the following protocols will be followed:

#### SCENARIO

- An employee or student who does not feel well and visits the school office staff.
- If the symptoms are similar to those associated with COVID-19 infection, the school office staff will contact appropriate health officials for further guidance.
- The employee or student will be separated from others.

#### EMPLOYEE

- The employee will contact their primary healthcare provider and the provider will arrange for testing.
- If the employee tests positive for COVID, the provider that ordered the test will call the employee with the positive result.
- The Health Department will also contact the employee and conduct a risk assessment (contact tracing). If the employee resides in a county other than Cole, then that county's Health Department will contact the employee.
- The Health Department will ask the employee about all close contacts the employee had from the 48 hours prior to symptoms up to and including the day the employee began isolation measures.
- They will direct the individual and any other person at possible risk of being infected with what to do.

#### STUDENT

The school office staff will contact the parent. When the parent arrives, the school office staff will encourage the parent to contact their child's health care provider.

- The school office staff will also notify the principal.
- The healthcare provider will arrange for the student to be tested, if needed. If the student tests positive for COVID, the healthcare provider will contact the parent.
- The Health Department will then contact the parent and conduct a risk assessment (contact tracing).
- The parent will be asked about any close contacts the student may have had from the 48 hours prior to symptoms up to and including the day the student began isolation measures.
- They will direct the parent on what the student and any other person at possible risk of being infected should do.

#### EMPLOYEE OR STUDENT ORDERED TO SELF-ISOLATE

- If an employee has been told to self-isolate, they will contact the principal.

- If a student has been told to self-isolate, the family will call the school and follow the guidelines for family members according to local health officials.
- The principal will contact the pastor and the Diocesan Superintendent.
- The principal along with the Diocesan School Office will consider initiating the following Positive COVID-19 Protocols:
  - The building may close for 24-48 hours to allow for deep cleaning.
  - A classroom that has had a positive exposure may be sent home for contact tracing purposes and to ensure the safety of the students.
  - The principal will contact the Health Department for additional guidance.
  - Official communication to families and/or media will come from the school principal or the Diocesan Office of Communications.
  - The building principal will follow up with the staff member or family of the student.
- If a student or staff member is being tested for COVID-19, they must remain at home until results are confirmed. They may not return to school if the test is positive.
- If a person in the immediate household of a student or staff member is awaiting the results of a COVID-19 test; the student or staff member should stay home until the test results are confirmed.

When positive cases are identified within the school, the principal will follow communication protocols given by the Cole County Health Department and the Diocese of Jefferson City. Communication will be made on a need-to-know basis.

### **Pandemic Period/Response Activities (School Closed)**

The decision to close the school building may be made as a means to prevent further spread of an epidemic, or in response to high student and/or staff absenteeism. The principal in consultation with the pastor, diocesan school office, and local health authorities will make school closure decisions. Current CDC recommendations will help guide closure decisions.

Possible School Closure Trigger Points:

- Student absenteeism  
- When it is not prudent to keep the school open due to extremely high absenteeism of the student population due to illness.
- Teacher/Staff absenteeism  
- When the number of staff available to supervise and instruct students drops below what is necessary to maintain a safe learning environment.
- Confirmed case(s) of COVID-19.
- To protect the public health and safety  
- When advised to close by the Governor, state and local health authorities or the Bishop.

The decision to close on these triggers is the school's decision in conjunction with guidance from the Jefferson City/Cole County Public Health and Human Services, the Missouri Department of Health and Senior Services, the CDC, and the Diocese of Jefferson City.

### **Custodial**

The school will clean frequently touched surfaces and objects (e.g., tables, water bottle filling stations, doorknobs, bathrooms, handrails, etc.) with cleaning and disinfectant products. Computer safe disinfectant methods will be used for computers and keyboards.

We will continue to follow the Department of Health recommendations regarding sanitation, social distancing, changing structures and systems to comply with guidelines, and best practices for the amount of individuals within buildings or spaces. As the guidelines change and adjust, so will our direction and communication. We will continue to adapt to our environment and provide the best support to our staff, students and families.

### **Masks**

While supported and recommended, masks will normally not be required in order to enter or exit the building. Students and staff are welcome to wear masks throughout the school day if this is the individual's choice.

Each student is required to have at least one mask at school, should the need for wearing a mask arise. Please send 1 mask in a baggie, with your students name on the baggie, to school with their supplies.

If a parent/guardian wants their child to wear a mask throughout the day, the parent/guardian needs to communicate this via email to the school office. The school office will then notify the child's teachers.

- **Masks are now required to enter and exit the school, during transitions, and during classes/activities that require students to face each other.**

### **General Hygiene Practices**

Wash your hands with soap and water for a minimum of 20 seconds. 20 Seconds would equate to the following:

1. Singing "Happy Birthday" twice
2. Saying three Hail Mary's
3. Singing the chorus to "Let It Go" from Frozen

While the school will have additional hand sanitizer, there will be an expectation of students following these healthy practices:

Clean your hands (consider regular "hand washing" breaks) and disinfect frequently touched items.

Avoid touching your eyes, nose and mouth.

Cover your mouth and nose with a tissue when coughing or sneezing; or use the inside of your elbow, not your hands. Immediately throw away used tissues.

Clean your hands (wash them or use hand sanitizer) after coughing, sneezing, eating/handling food or touching things in "common" areas in your building (kitchen, mailroom, copier, lobby, etc.).

Hand sanitizer will be provided in every classroom.

## Sports

Practice sessions will be closed to limit outside exposure of COVID. Closed sessions only allow the coach and players to be in the gym. Pick-up will take place outside of the gym.

Please refer to the CMPAL Winter Sports Guidelines below for game information.

As the summer progresses, we will continue to stay in close contact with the Jefferson City/Cole County Health Department. If our plan for the 2020-21 school year needs to change, we will communicate these changes to families as quickly as possible.

- Revisions are in red.

## CMPAL Winter Sports Guidelines

As we prepare to begin the winter sport seasons of Archery, Basketball, and Cheer we wanted to prepare for the increased limitations for fan attendance and hosting which have come about because of the increases in COVID cases in our area.

Please know that the steps we are taking, while inconvenient, are to keep our students in school and able to participate in extracurricular activities as long as possible. While views vary on how that is done, or whether it should be done, we ask that while participating, conducting, or attending CMPAL events that these minimum requirements be honored. If you feel you, your child, or your family can not follow these guidelines, we ask you not to participate in these activities for the 2020 Winter Sport Season.

There will be a uniform limitation on fan attendance for all CMPAL events regardless of the size of the venue to make it less confusing and easier to maintain social distancing. This will look slightly different in each host site as the available space is not the same nor are the configurations of that space. Host schools can choose to have stricter protocols for seating, entering and exiting but ALL schools will follow the minimum requirements listed below.

### Basketball

1. **Limit of 2 attendees per player.** Coaches who are parents are considered an attendee for that player.
2. ALL attendees, players, work personnel, and referees **must wear a mask while entering, exiting and ANY time social distancing is not possible.** This includes but is not limited to: attendees leaving the bleachers, players leaving the bench or court area, referees leaving the court at half time.
3. Host school **workers must wear a mask** at all times.
4. Teams and their attendees are asked to **arrive together** and enter as one group once bleacher space is provided.
5. **ALL attendees, players, work personnel, and referees will sign in at the Gate for contact tracing purposes.**
6. Attendees must **sit in school designated areas** and separate from the other school.
7. In **larger gymnasiums** (St. Peter, St. Joseph Cathedral, OLLIS) where bleachers will have designated seating locations of family groups for social distancing **masks are not required once seated.**
8. In **smaller gymnasiums** where social distancing between family groups can not be achieved **masks will be required** for the entirety of the event.
9. Once games are finished teams and their attendees are asked to **exit the benches**

**and bleachers as quickly as possible** for the next group.

10. **Benches need to be sanitized between games.** To stay on schedule as much as possible bleachers may be sanitized but not required. Therefore, hand-sanitizer should be available at or near the gym entrance/exit.
11. If possible host schools should enter and exit attendees through different doors.

### Archery

1. **Limit of 2 attendees per shooter.** Coaches who are parents are considered an attendee for that shooter.
2. ALL attendees, shooters, and work personnel, **must wear a mask while entering, exiting and ANY time social distancing is not possible.** This includes but is not limited to: attendees leaving the bleachers, coaches in the waiting area, and line officials when within 6 feet of a shooter or other official.
3. Host school **workers must wear a mask** at all times.
4. When possible, teams and their attendees are asked to **arrive together (outside)** and enter as one group as close to flight time as possible.
5. **ALL attendees, players, work personnel, and referees will sign in at the Gate for contact tracing purposes.**
6. Shooters should arrive with ALL equipment and be prepared to go directly to the shooting area.
7. 1 shooter per target and targets can be no closer than 5 feet from one another.
8. Shooters must wear a mask at all times except while shooting and going to and from the shooting line.
9. While in the waiting area shooters must be directly in front of their target and masked.
10. Attendees are asked to **sit in school designated areas** and separate from the other school.
11. In **larger gymnasiums** (St. Peter, St. Joseph Cathedral, OLLIS) where bleachers will have designated seating locations of family groups for social distancing **masks are not required once seated.**
12. In **smaller gymnasiums** where social distancing between family/school groups can not be achieved **masks will be required** for the entirety of the event.
13. Once a flight is finished shooters and their attendees are asked to **exit the waiting area and bleachers as quickly as possible** for the next flight.
14. If possible host schools should enter and exit attendees through different doors.

### Cheer

1. **See Basketball rules 1-8.**
2. Because cheerleaders are not expected to wear a mask while cheering, they must have a designated location in the gymnasium that is at least 6 six feet from seating areas and player benches.
